9:00 AM

Irene R. Mikawoz, P.Eng.

Deputy Director, Prairies Regional Office, NSERC

As the Deputy Director of the NSERC Prairies Regional Office, Irene Mikawoz directs a wide range of activities and initiatives aimed at increasing NSERC's visibility and presence in the region. She facilitates collaboration opportunities among post-secondary institutions, industry and other agencies involved in science and innovation. Irene and her staff are actively involved in program delivery responsibilities for programs such as Alliance in the research partnerships division at NSERC.

Irene began her engineering career working in manufacturing with Procter and Gamble in Ontario. In, 1993, she returned to Winnipeg to a work at the University of Manitoba where she held a number of positions before starting work at NSERC. Irene has also worked as a consultant in her own business, and she is an active member on a number of boards and committees.

Irene has a BA in Psychology and a BSc in Industrial Engineering from the University of Manitoba. She completed her master's work in mechanical engineering at McMaster University. Irene is a registered professional engineer in Manitoba. Irene has worked at NSERC since 2005.
