

One of our member companies is looking to recruit experienced **MIG Welders** for their facility based in Winnipeg, Manitoba.

They are a leader in the industrial and aerospace markets for manufacturing of rubber-molded products and die-cut gasket seals.

**Location:** Winnipeg, Manitoba.

**Category:** MIG Welder, CWB Certified preferred but not required.

**Application Deadline:** Until filled.

**Salary/Wage:** Hourly at \$18.00-\$20.00 – depending on experience.

**Position Type:** Full-Time

**Positions Available:** 2

As a **MIG Welder** you will layout and fabricate metal components and assemblies.

**In this role, you will:**

- Use drawings, specs and/or verbal direction to fabricate products using hand tools, machine tools and welding equipment.
- Read and interpret blueprints or welding specs to ensure that all materials required for fabrication are readily available.
- Take accurate dimensions from drawings and transfer onto materials.
- Fabricate efficiently with high levels of quality.
- Take pride in all work ensuring that dry fitting, grinding, scraping, cleaning and/or applicable fabrication tasks are completed.
- Perform maintenance procedures on all MIG machines.

**You are/have:**

- A MIG Welder.
- In-depth metal working knowledge (3-5 years) and proven hands-on experience as a MIG Welder.
- A Grade 12 Diploma.

We provide a comprehensive benefits program, pension plan, and a summer-hours program.

If you want to work with a great group of people in a dynamic company, please submit your resume and cover letter to:
