

Hello all:

Have a look at these statistics:

According to a number of experts in the field, this could be the “golden age” for cyber scammers. ***In order to help our members understand and mitigate the dangers, Manitoba Aerospace is collaborating with MITT’s (Manitoba Institute of Trades and Technology) CyberWave to provide an information session at our Networking Breakfast on January. 18, 2023 from 8:00 to 10:30 called: How to Ruin a Cyber Criminal’s Day!*** Cost is \$20.00 for members and \$35 for non-members.

As our dependence on new technologies rises, cyber threats are increasingly a part of day-to-day business and so we need to be aware of vulnerabilities. Cyber criminals are watching and actively looking for opportunities to exploit people and systems. No longer just the domain of IT support, now more than ever, cyber security is a mission critical component of any organizational strategy. CyberWave will share how adopting and following good cyber security practices is the vital first step to ruin a cyber criminal’s day, every day.

Your staff is your first line of defense against cyber threats. This workshop covers the essential skills you and your team need to know to mitigate cyber risks. It provides guidance and practical tools to ensure cyber security best practices as well as critical steps to take if and when your organization experiences a cyber-attack. Finally, we will discuss the importance of developing and evaluating a cyber security program.

Who should attend? Front line staff, supervisors, managers, IT staff, accounting staff, etc.
