

Piston Engine Inspector

Aero Recip (Canada) Ltd. is Canada's largest aircraft piston engine overhaul facility. We are currently looking for a Piston Engine Inspector.

Position Summary

Reporting to the Production Manager, the Piston Engine Inspector/Assembler is responsible for the inspection of opposed engines and parts.

Qualifications

- Previous experience on opposed piston aircraft engines desirable
- Works well with others
- A high level of integrity
- Minimum Grade 12
- Aviation training desirable
- Mechanically inclined
- Knowledge of tools and measuring devices
- Able to read drawings and blueprints and interpret technical manuals

Position Duties/Responsibilities

- Inspect engine parts for serviceability, reworks required, and scrap (unserviceable or unrepairable parts) and visual, structural, and dimensional inspection of parts and/or assemble in accordance with applicable Overhaul Manuals, Company Processes and Company Instructions, Engineering Orders, Service Bulletins, Service Instructions, Engineering Memorandums and Temporary Overhaul Data Revisions.
- Read work order for instructions
- Order parts and make rework sheets.
- Check reworks for completion.
- Identify and dispose of scrap per Company procedures.
- Document information from Work Order to inspection sheet
- Receive parts from cleaning, NDT, Sales or the production line
- Provide sales with information on parts required and parts scrapped.

Computer Skills/Machines and Equipment

- Standard tools & measuring devices
- Basic computer skills (Word, Excel...)

Other Comments

- Being able to pay close attention to details is essential to successfully performing the job.
- Must maintain a thorough working knowledge of overhaul manuals, parts books, service bulletins and service instructions to keep informed of any changes in overhaul procedures.
- A clean work area must be maintained to avoid any foreign objects contaminating the built units
- Customer service and a quality product have been key factors in the success of this company and we are looking for someone who will go the extra mile to provide an exceptional level of service and quality.

Benefits

We offer competitive compensation and a comprehensive benefits package and an incredible work environment.
